PHOTO SESSION

According to the old English adage that „A picture is worth a thousand words". The Igloo team has prepared for you some important tips on how to prepare your property for a successful photo session in order to optimize the final image of your offer.

ORGANIZATION

When the photographer contacts you to arrange a meeting, please remember to provide him with precise information as to the address of the session location, including non-standard circumstances such as unusual location of the staircase leading to the property, non-standard numbering of buildings, parking difficulties, etc.

TIMING

The best photos are taken when there is an abundance of natural daylight, so it is always a good idea to arrange a photo session during the day. During the year 1-4 quarter 10:00/14:00. 2-3 quarter 10:00/18:00. Photo sessions on weekends are also at your disposal if it is not possible to organize a date on working days.

ORDER

The property should always be kept clean and orderly. The frame should never include unmade beds, an untidy kitchen or bathroom. Loose items that are not part of the property, fixtures, furnishings or decorative elements, such as shopping bags or unburied suitcases from a trip, are absolutely unacceptable. Also, there should never be cleaning products in the shots, such as dish washing liquid in the kitchen, or rolls of toilet paper in the toilet.

LIGHTING

As we recommend for the most part taking photos with the lights on, make sure there is electricity in the property and that all light bulbs are working.

COORDINATION

In a situation where the current tenants agree to make the property available for the session, we kindly request to clean and tidy the property as much as possible and full cooperation with the photographer during the session.

CIRCUMSTANCES

The photographer should be informed about all unusual circumstances such as renovations, refreshments or replacement of furniture elements before arranging a meeting for the photo session.
